

Noc Innovation

● Hosted in South Africa

Server catalogue

VPS and dedicated servers, ready when you are.

VPS from

R420

per month

Dedicated from

R3,500

per month

Why host with Noc

Your servers run in South Africa, on enterprise hardware, with a team watching them around the clock. You pay monthly in rand.

99.7% uptime SLA

Network and power uptime guaranteed, with service credits if we miss it.

24/7 support

Real people, any time. WhatsApp is the quickest way to reach us.

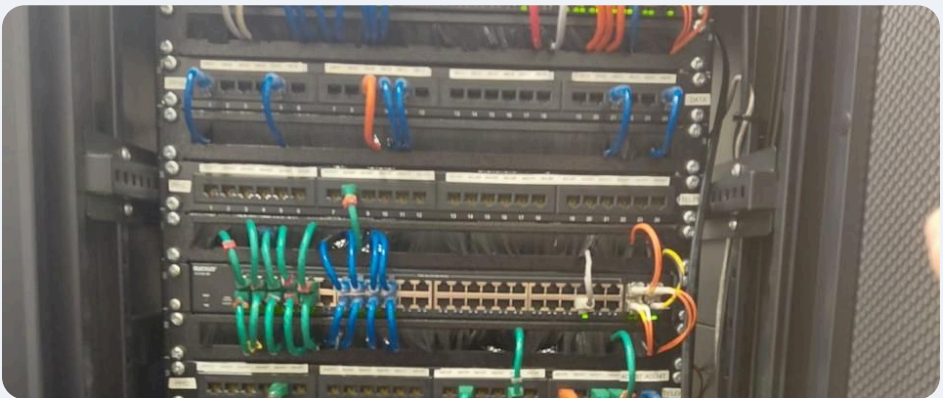

Hosted locally

Low latency for South African users, billed in rand with no exchange-rate surprises.

Nothing to buy

No servers, racks, power or cooling to pay for upfront. One monthly fee.

Every rack we build is colour-coded, labelled and documented.

Virtual private servers

Your server. Full root.

Each VPS is its own KVM virtual machine on Proxmox, with guaranteed vCPU, RAM and SSD. Nothing is oversold, and nothing is shared with other customers.

- ✓ Full root access over SSH
- ✓ KVM on Proxmox
- ✓ Ubuntu, Debian, AlmaLinux, Windows Server and more
- ✓ Snapshots with one-click restore
- ✓ Scale RAM, CPU or storage later
- ✓ Dedicated 1 Gbps port, IPv4 included

Start small

Perch

Dev environments and light apps

R420
per month

- ✓ 2 vCPU cores
- ✓ 4 GB RAM
- ✓ 50 GB SSD
- ✓ 50 GB bandwidth
- ✓ 1 IPv4 address
- ✓ KVM virtualisation
- ✓ Full root access

Most popular

Roost

Web apps, Node.js and PHP projects

R778
per month

- ✓ 4 vCPU cores
- ✓ 8 GB RAM
- ✓ 100 GB SSD
- ✓ 100 GB bandwidth
- ✓ 1 IPv4 address
- ✓ KVM virtualisation
- ✓ Full root access

Every VPS includes

Full root access, KVM on Proxmox, snapshots, a dedicated 1 Gbps port, an IPv4 address and 24/7 support.

Scale up

Hunter

E-commerce and API backends

R1,650
per month

- ✓ 8 vCPU cores
- ✓ 16 GB RAM
- ✓ 220 GB SSD
- ✓ 200 GB bandwidth
- ✓ 1 IPv4 address
- ✓ KVM virtualisation
- ✓ Full root access

Apex

High-traffic apps and databases

R2,999
per month

- ✓ 12 vCPU cores
- ✓ 32 GB RAM
- ✓ 300 GB SSD
- ✓ 500 GB bandwidth
- ✓ 1 IPv4 address
- ✓ KVM virtualisation
- ✓ Full root access

Not sure which plan fits?

WhatsApp us what you run, and roughly how many users, and we will recommend a plan. Upgrades later need no migration.

Side by side

	Perch	Roost	Hunter	Apex
vCPU cores	2	4	8	12
RAM	4 GB	8 GB	16 GB	32 GB
SSD storage	50 GB	100 GB	220 GB	300 GB
Bandwidth	50 GB	100 GB	200 GB	500 GB
IPv4 address	1	1	1	1
Per month	R420	R778	R1,650	R2,999

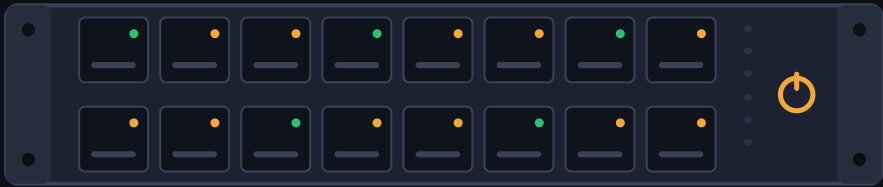

Need something in between?

We can set up custom CPU, RAM and storage combinations. Ask us for a quote.

Dedicated servers

Bare metal. Zero sharing.

Rent a whole physical server by the month. No other tenants, no hypervisor overhead, and no hardware to buy.

IPMI access

Out-of-band remote management, even when the operating system is down.

4-hour hardware SLA

Critical part failures responded to within 4 hours during business hours.

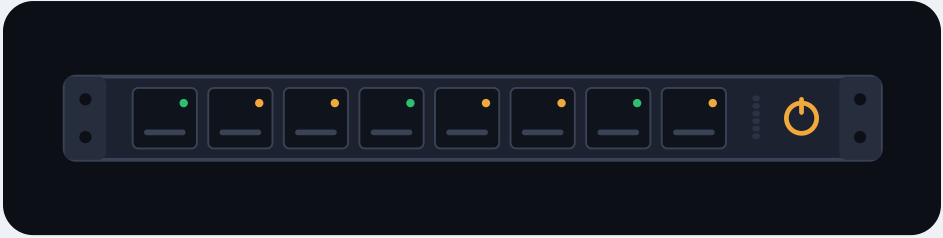

Spares on site

Drives, RAM and network cards kept on hand for fast swaps.

DDoS protection

Every server protected and monitored around the clock.

Dedicated servers

Barn Owl

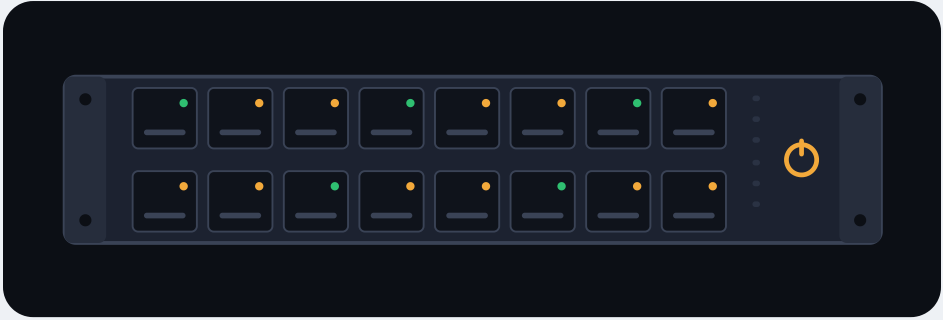

Entry-level bare metal

R3,500
per month

A capable entry point into bare metal: six Xeon cores and 96 GB of ECC memory for web stacks, databases and virtualisation labs.

- ✓ Intel Xeon E5-2620 v3, 6 cores / 12 threads, 2.4 GHz
- ✓ 96 GB ECC DDR4 RAM
- ✓ 2 x 960 GB SSD in RAID 1
- ✓ 500 GB bandwidth
- ✓ 1 Gbps uplink, 1 public IP
- ✓ IPMI remote access
- ✓ DDoS protection
- ✓ 24/7 hardware monitoring

Dedicated servers

Most popular

Snowy Owl

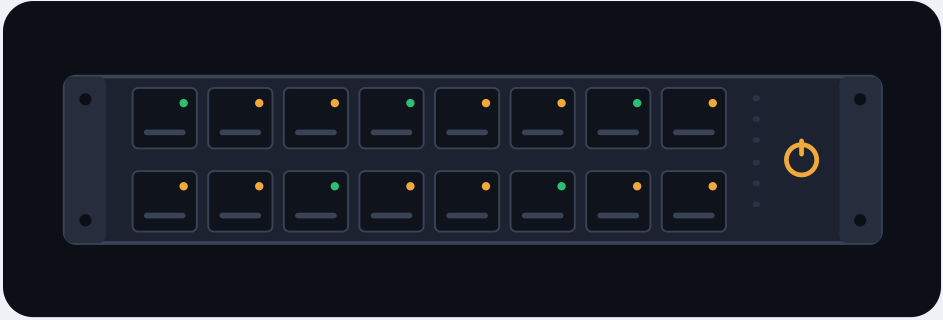

Balanced performance

R4,500
per month

Fourteen cores and 28 threads with 128 GB of ECC memory. The all-rounder for busy applications and many virtual machines.

- ✓ Intel Xeon E5-2697 v3, 14 cores / 28 threads, 2.6 GHz
- ✓ 128 GB ECC DDR4 RAM
- ✓ 2 x 960 GB SSD in RAID 1
- ✓ 500 GB bandwidth
- ✓ 1 Gbps uplink, 1 public IP
- ✓ IPMI remote access
- ✓ DDoS protection
- ✓ 24/7 hardware monitoring

Dedicated servers

Eagle Owl

Heavy workloads and large databases

R6,999
per month

A high-clock Xeon Gold with 256 GB of ECC memory, for large databases and memory-hungry workloads.

- ✓ Intel Xeon Gold 6144, 8 cores / 16 threads, 3.5 GHz
- ✓ 256 GB ECC DDR4 RAM
- ✓ 2 x 960 GB SSD in RAID 1
- ✓ 500 GB bandwidth
- ✓ 1 Gbps uplink, 1 public IP
- ✓ IPMI remote access
- ✓ DDoS protection
- ✓ 24/7 hardware monitoring

How to order

1

Choose your server

Pick a plan from this catalogue, or ask us to recommend one.

2

Send us your order

WhatsApp us, email us, or order online at noc-innovation.co.za.

3

Pay the first invoice

We email an invoice. Pay by EFT using the details on it.

4

We set it up

Your server is provisioned and your login details are emailed to you.

Want us to watch it too?

Add NOC Watch monitoring and our team keeps an eye on your server 24/7, with alerts and a monthly report. Quoted on request.

Need different hardware?

We can source and configure servers to your exact specification.

The Noc never sleeps.

Talk to a person, any time.
